PROFESSIONAL SUMMARY

Seasoned Lead Software Engineer with 18+ years of experience in enterprise systems and regulatory compliance. Proven track record of leading cross-functional teams to deliver large-scale digital products and modernization programs. Expert in balancing business strategy with technical requirements, driving solution architecture, and ensuring rigorous risk management and governance in compliance-heavy domains.

TECHNICAL SKILLS

PROFESSIONAL EXPERIENCE

Lead Software Engineer, SMIS 2.0 — *WELLS FARGO*

2020-PRESENT

- Directed regulatory-driven modernization of SCRA/SMIS, delivering audit finding remediation and application changes within tight deadlines.
- Led cross-functional teams to deliver secure, robust, and sustainable digital products, ensuring alignment with enterprise architecture standards.
- Partnered with compliance/audit teams to remediate production incidents, improving stability and operational efficiency.
- Contributed to strategic roadmap planning for a \$250K budget, aligning technology investment with business strategy and compliance mandates.
- Orchestrated platform migration and NFR initiatives including scalability, performance, and risk management.

- - Standardized design and architecture reviews to enforce secure SDLC and operational excellence across the engineering organization.
- - Mentored engineers and fostered a culture of innovation, including the development of an LLM-based intelligent automation system.

Application Architect / SDE4, SMIS 1.0 — *WELLS FARGO*

2015-2020

- - Championed an API-first strategy, accelerating integrations and reducing time-to-market for compliance processes by 30%.
- - Partnered with product stakeholders to design BPM workflows, achieving zero compliance breaches.
- - Led workflow automation and re-engineering efforts, driving architectural improvement and operational efficiency.
- - Managed vendor engagement with Oracle to implement platform features and resolve technical vulnerabilities.
- - Established architecture review processes and automated testing frameworks to ensure high-quality, defect-free releases.

Sr. Pre-Sales Consultant — *ORACLE*

2012-2015

- - Advised enterprise clients on cloud-native and Java-based architectures, shaping modernization roadmaps and migration strategies.
- - Conducted technical deep dives and stakeholder engagement sessions to accelerate the adoption of modern integration patterns.
- - Influenced executive stakeholders by crafting compelling business cases to translate business needs into scalable, secure reference architectures.

Team Lead — *ACCENTURE*

2006-2012

- - Established an Oracle Center of Excellence (CoE), standardizing development practices across global delivery teams.
- - Led the design and development of the Accenture Foundation Platform for Oracle (AFPO), significantly reducing implementation timelines.
- - Spearheaded SOA/BPM integration solutions, improving scalability and interoperability across enterprise platforms.
- - Developed reusable frameworks and documentation to drive technical excellence and mitigate project risks.
